

SINGLE DOOR REACH-IN PROVER

BRAND: Macpan

CATEGORY: Retarders / Provers

PRODUCT NUMBER: REA-PRO

The Macpan Australian-made Single Door Reach-In Proofer perfectly compliments any commercial bakery, patisserie, or industrial kitchen.

Manufactured using only the very best materials, our Single Door Reach-In Proofer is easy to use, built to last, and yield the very best results.

Proofer are used in baking and other cooking practices to provide a warming chamber that encourages the pastry or dough to ferment. This process is controlled using humidity controls within the proofer which creates the optimal temperature for the dough.

PRODUCT FEATURES

- Single door for easy use
- Compact design suitable for small or large areas
- Customisable controls for varying temperature requirements
- Stainless steel frame, shelving racks, and door
- Constructed using high-quality Australian-made materials
- Precision airflow for balanced and controlled proofing capabilities

PRODUCT BENEFITS

The benefits of opting for a high-quality Australian-made Macpan proofer can be found in the quality and durability of the product. We conduct strict quality control testing for each of our products to ensure that they are meeting our manufacturing standards. We also provide ongoing, 24/7 technical support for all of our products to ensure we keep your business moving at all times.
